FLOORCOATINGSETC

NATIONWIDE APPLICATOR OF HIGH QUALITY FLOORING SYSTEMS

FCEI COMPANY PROFILE

FIRE/EMS FLOOR INSTALLATIONS

ABOUT US

Floor Coatings Etc., Inc. is a 33-year-old INSTALLER of resinous flooring systems. We manufacture our own materials under the trade name ECONO SURF for our own use. Therefore, we are one of only a few companies nationwide of our size that BOTH MANUFACTURE and INSTALL. We offer SINGLE SOURCE responsibility.

CERTIFIED APPLICATOR

We also install epoxy and urethane systems as a "Certified Applicator" for no less than twelve (12) nationally recognized manufacturers. Odds are that if you have a Brand Name material in mind, we're an authorized installer. These would include: Euclid; General Polymers (Sherwin-Williams); Sika-Garland; Sika-Valspar; Rust-Oleum; Rock-Tred; Fox Industries; Tremco; Neogard; Tnemec; Carboline, etc.

MARKETS SERVED

We do six (6) epoxy floors EVERY week. One of those six is a firehouse. Two are auto or truck service related. Therefore, a full half of our work involves heavy vehicles.

GEOGRAPHY

We've done work as far east as Maine and as far west as Atsugi, Japan. We've done more than two dozen jobs in California. Therefore, we are truly a national installer. Our primary focus, however, is the Northeast, the Mid-Atlantic and the South. Even on smaller jobs like firehouses we would expect to be the best price on an "apples to apples" basis in our focus area.

WHAT WE OFFER

● Absolute Single Source Responsibility ● Thirty-three (33) years of experience ● 4,000 Completed Projects ● Applicator of Choice of at Least Twelve (12) Nationally Recognized Brand Name Formulators ● Original Owner Still at The Helm ● Guaranteed Best Price "Apples to Apples."

QUALIFICATIONS

We've always had to contend with unqualified competitors trying to do what we do. In tough economic times it's even worse. Anyone who has ever done a floor thinks they're an expert. Remember, a contractor's lack of experience WILL BECOME your liability. Make sure that you are comparing "apples to apples." Get numerous references. And, call the references. You owe it to your house to spend their money wisely.

TYPE SYSTEMS INSTALLED

We install ALL of our systems the way they SHOULD BE installed - mathematically! Therefore, virtually all of the systems listed below can be somewhat altered (installed thicker or thinner) to increase or decrease the cost of the floor.

Typical Apparatus Bay systems:

- Single broadcast 1/16-inch (65 mils) and Double broadcast 1/8-inch (125 mils) full aggregate broadcast systems installed as solid color shop floors or decorative color quartz
- Power troweled nominal 1/4-inch epoxy and urethane-concrete resurfacers with a variety of finish textures for heavy duty service and/or to refurbish a badly eroded floor
- Computer generated logos from Agio Imaging

Other systems Available:

- Deep fill screeded and hand or power troweled epoxy mortar systems for reconstructing concrete floors - usually one-half-inch or thicker
- 100% solids squeegee applied epoxy coatings ● Roller-applied thin film epoxy and urethanes
- Full fill and Intermittent vinyl flake floors
- Golden Look natural stone and Stone Carpet decorative colored stone troweled systems
- Acid stain ● Burnished and polished concrete ● Concrete sealers and densifiers

FLOOR COATINGS ETC., INC. ● 110 J&M Drive ● New Castle, DE 19720 ● Phone:(888) 328-4036 ● Fax:(302) 322-4457
